

Notre-Dame du Lys - Walker 1971 - System Unit - How it works ?

* The Bourdon 16' is on the side (C1-G1#, wood) and on the front (A1-G2, metal).
The two leftmost pipes are fake, like those behind this row of facade, only present for the symmetry of the sideboard.

** C4-C5 & C5-C6 = C3-C4.
The mixture is made up of a 22nd, a 26th and a 29th. Or two octaves and a fifth. Therefore C1 = C3 + G5 + C4
First octave of the Mixture (3 RKS) is played by the Open Diapason 8'
